About IBI

IBI was designed for business incubation managers, entrepreneurs, governmental officials and other business incubation stakeholders wishing to increase their understanding and know-how of international aco-incubation business. It is sponsored by Shanghai International Business Incubator and also one of the major training programs of AABI (Asian Association of Business Incubation), which has been held successfully for 20 years and over 500 participants from 30 countries and regions.

About the Sponsor

Shanghai Technology Innovation Center (STIC) is a non-profit public science and technology service organization affiliated to Shanghai Science and Technology Commission of Shanghai Municipality. STIC is devoted to promote transforming scientific and technological achievements, incubating science and technology enterprise and cultivating technology entrepreneurs. As the supporting organization of Shanghai Science and Technology Incubator Association, STIC has formulated the initial incubation service system among the whole city, promoting the science and technology incubators in Shanghai more specialized, standard and international.

About the Co-organizer

The Shanghai Zhangjiang hi-tech innovation service center was established in 1993 to cultivate high-tech enterprises. We aim to establish an innovative service system with independent intellectual property rights as the core, and promote the commercialization, industrialization and internationalization of scientific and technological achievements. In 1997, the starting center was approved by the national Ministry of Science and Technology of China as an incubator for international enterprises, and in 1999, approved by the national Ministry of Science and Technology of China as a national high-tech start-up service center.

Techcode SME Services Co., Ltd. (abbr. as Techcode) was established in 2014. We are dedicated to operating incubators and integrating global innovation resources. Since its opening, Techcode has established 31 incubators and accelerators in 25 cities of 7 countries across the globe. With excellent services in incubation/acceleration and extensive innovation ecological system, Techcode has developed ICV, AI, IoT, and AR/VR innovative clusters in partnership with local governments and industrial parks. As a leading operator of innovative clusters, Techcode has got recognition from top government officials at home and abroad.
